

HIPnation Community

Better care. Less cost.

HIPNATION COMMUNITY

- Reduce your costs 30-60%
- Built upon the Direct Primary Care (DPC) foundation
- Open network
- Cost sharing for large healthcare events

Solutions start at \$356 per month.

DIRECT PRIMARY CARE

All access to a HIPnation Primary Care Provider via office visits, phone, text, and telemedicine 24/7 with longer appointments (30-90 minutes). All with no copays.

Physicians and patients are trapped in the current insurance system that has little to do with care. Patients are getting sicker, costs continue to rise, and greater than one out of three people avoid medical care due to cost.

Direct Primary Care removes the distractions and overhead expenses created by insurance and replaces it with a fixed membership fee. As a result, our doctors:

- See only 6-8 people a day
- Offer 30-90 minute visits
- Proactively focus on health, lifestyle medicine, and chronic disease management
- Develop an enduring relationship with patients

website at www.HIPnation.com**

It's like having a doctor
in the family.

Dr. Aly Hashim
HIPnation Woodstock

BENEFITS

- Unlimited access to your personal doctor with longer office visits and 24/7 access through phone calls, texts, or telemedicine
- No copays that can create a financial barrier to care
- Better care through early intervention, continuity of care, and active engagement
- Same day, next day appointments for acute care
- 90% reduced rates for labs
- Many minor procedures can be handled in the primary care office
- Advice on nutrition, exercise, and overall wellness

SPECIALISTS, IMAGING, ER, HOSPITALIZATIONS

Direct payment with the medical community immediately reduces healthcare costs 30-60%. This also means you can access healthcare anywhere (no limited networks). We will show you how simply this works.

LARGE HEALTHCARE EVENTS

We use a non-traditional product that acts as the financing mechanism to manage expensive medical events (similar to a co-op). Based on our most popular plan, you would be responsible for \$1,500 of a medical need and the cooperative manages the remainder. This \$1,500 is called an Initial Unshareable Amount (IUA). **The IUA is a fraction of an insurance deductible and max-out-of-pocket.**

HIPnation Direct Primary Care can manage 80-85%
of your healthcare needs.

Dr. Maria Perdomo
HIPnation Flat Shoals

SCHEDULING PRIMARY CARE

You are strongly encouraged to make your first appointment upon enrollment. This allows you to access your doctor remotely if you become sick or need medical attention. It may also reduce the need to see other specialists since your **HIPnation Primary Care can handle 80-85% of your healthcare needs (thus saving time and money).**

MEDICATIONS

Use GoodRx to purchase prescription medications at their cash-based price. Most of the time, this pricing is comparable to a copay (sometimes it is less or even free). HIPnation can also use international sourcing or patient assistance programs to help with high-cost medications. We will work with you if there are high-cost medications.

PREVENTIVE CARE

Screening mammograms and screening colonoscopies are eligible for reimbursement if performed after six (6) months of continuous membership. Flu shots are reimbursed, as well.

"HIPnation offers a wonderful new approach to primary healthcare without the dredges of over-priced health insurance. I had my physical today with my HIPnation doctor and learned more than any other physician has told me in years. I spend a fraction of what I spent with traditional insurance."
